HARVEST

Date of Harvest: 12 March 2003
Type of Harvest: Hand Harvest

VINIFICATION:

Method: The grapes were allowed to reach optimum ripeness before being hand harvested. Careful selection in the vineyard resulted with only the best grapes being used for this wine. After de-stalking the mash was inoculated with yeast and fermented in an open stainless steel tank. Pump over was done twice daily for an hour. Further 5 days maceration on the skins was allowed after fermentation before the skins were pressed. The wine underwent malolactic fermentation in the tank before being pumped to 225 litre vats, French Oak, for a 17 month maturation period. The resulting wine has a deep velvety colour with complex ripe berry fruits balanced with hints of cedar and oak spiciness.
